MUDRAKSHI
(AN ISO 9001 COMPANY)
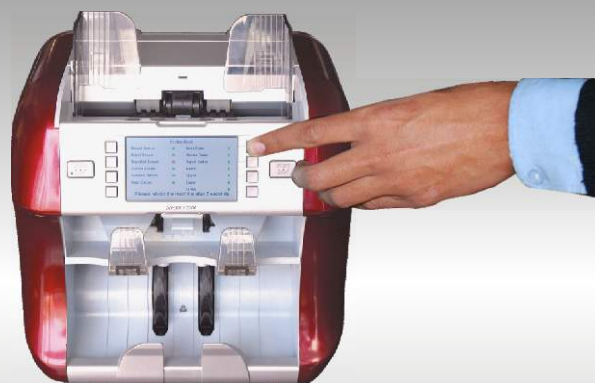

Newton-F
1+1 pocket
currency sorter

With innovative technology and proven track record throughout the world, this Note Sorting Machine is the perfect solution in detecting Fake Currency at the front office itself.

This compact portable equipment is the fastest in this segment. This is the only machine which can mix counting with counterfeit detection, segregation of withdrawn series and composite note detection. The Central Monitoring System and Deposit with client ID are also the unique features of Newton-F. This machine is capable of being used as cash recycling system; in fact, it is being used as such in Europe.

This indefatigable equipment can function for 16 hours without breathing. This small wonder is capable of processing currencies in paper, polymer and hybrid.

Above all, pricing is very reasonable, quite attractive and competitive.

MUDRAKSHI
(AN ISO 9001 COMPANY)

Features of Newton-F

Speed
- 1000 notes/min for value counting
- Highest as on date on this platform

Capacity
- Robust and sturdy
- Can function continuously for 16 hours

Suitability
- This can be used both for front and back offices
- Touch screen and side keys are user friendly

Size
- Most compact with bright 4.3" TFT display with user friendly icons
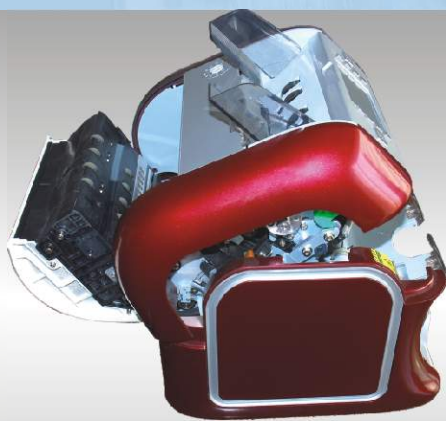

Capability
- This machine can also segregate the withdrawn series of notes
- Apart from fitness sorting, Newton-F is being used for cash recycling purpose in Europe
- Setting need not be changed for different denominations of currency
- The use of fully packed exclusive sensors can identify high quality to low quality counterfeit currency notes
- Ideal for use in Rural ATMS as well since this is the only machine in this segment that can sort low denomination notes of Rs. 10, 20 and 50

Central Monitoring
- This Head Office can monitor the data through LAN/WAN connectivity and can also find out the number of fit/unfit, ATM and the number of rejected notes.
- Newton-F can also be monitored even if the equipment is not being used or it is out of order.
- The report about the mode in which the machine has been used can be taken in excel form
